Next, your package will also include three essential accessories saving you hours of time and frustration, at a great price; you end up being more competitive.

All-Terrain Wheel Attachment

The 15"x 6" pneumatic All-Terrain Wheels quickly attach to the rear of the **LECTRO-TRUCK™** without the need for tools. Allows the user to move heavy loads over grass, gravel, sand and construction sites.

Concave Strap Bar

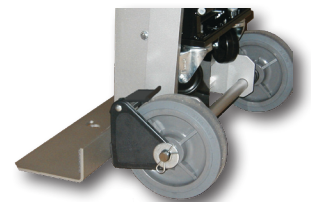

The 36" Commercial Concave Strap bar

is a variation of the traditional strap bar to better position cylindrical loads on the toe plate.

Wheel Brakes

The wheel brakes are great for beginner users and deliveries on tapered, beveled or worn stairs. Also useful for chalking the load during vehicle transportation.
